**Study Format:** For each of the five acts of worship, our study and discussion will follow this format:

- We will first consider aspects of each action in terms of worshiping in **truth**. This includes Scriptural references for each action, doctrinal considerations, and how exactly we are taught to perform each action.
- Next, we will consider each action in regard to what it means to worship in **spirit**. This will include a consideration of the spiritual importance of each action, how it applies to our faith, and how each action helps us to better understand God.
- We will equate our consideration of worshiping in truth to **how** we conduct each function, whereas worshiping in spirit will apply to **why** we conduct each function.
